01 WHO WE ARE

Founded in 2013, HD Marine is an idea of the founders, who are used to be experienced Captains and Chief Engineers. Since working onboard AHTS vessels, they experienced and realized the lack of supply of local AHTS vessels in comparison with the domination of foreign vessels for offshore activities in Vietnam. Thus, the idea of establishment of new company specialized in provision of service vessels to compete with foreign companies in Vietnam market was born.

Right from the beginning, HD Marine originally operated two vessels Hai Duong 02 and Hai Duong 06 with its very limited involvement in the offshore activities such as spot charters for supply run. Within three years of non-stop efforts to achieve its goals, HD Marine is now operating and managing 08 diversified vessels including Hai Duong 02, Hai Duong 06, Discovery 1, Lam Hong, Everest 1, Everest 2, Hoang Long and Thanh Long. Along with the development of fleet, HD Marine has been chosen by clients through bidding process for provision of vessels for drilling activities, offshore transportation and installation, long term contract for field standby duty and especially for project of subsea construction. In order to satisfy client's demand for quality vessels and services, HD Marine is going to invest to have more modern and big capacity vessels in near future.

HD Marine has been employing 44 experienced, enthusiastic, innovative and well-trained employees located in office and 182 crews who mature from the marine environmental service. With our professional, dynamic staffs and crews, we believe that we are competent to satisfy even the strict demands of clients and we hope to be entrusted by the clients whenever choosing service providers.

 **VISION**

We strive to be the top choice for marine services in Vietnamese market, with steady expansion on to the region.

 **MISSION**

We aim to become the compact organization that provides clients a competitive advantage with affordable high-quality marine service vessels.

 **CORE VALUES**

Top service - we're committed to deliver top quality services and guarantee satisfaction for our clients.

Empowerment - we value our employees, and create the best working environment to encourage proactive and creative mentality in every solution.

Forward thinking - we always invest in new and modern vessels to meet customer's demands.

 **WHY US**

Compact size.

Quick decision making process.

Vessels are always procured, maintained and ensured for optimal efficiency and effectiveness.

10 Vessels are operated and managed by HD Marine

03 SERVICES OVERVIEW

DRILLING SUPPORT

HD Marine can offer an wide range of service vessels of high quality and outfitted with standardized equipment which can ensure client's drilling operations safely and efficiently.

TOWING, ANCHOR HANDLING FOR RIG

HD Marine is one of the experienced service providers for extensive range of vessels for Towing and Anchor handling operations which contributed greatly to client's operations.

A large offshore oil rig with a yellow and white structure is positioned on the right side of the frame. A long yellow bridge extends from the rig towards the left, where two small structures are emitting flames. In the middle ground, a red and white support vessel is visible on the dark blue sea. The sky is bright blue with scattered white clouds.

FIELD STANDBY SUPPORT

HD Marine is currently providing its vessels to perform standby duty for clients in Vietnam. With their timely and excellent support, client's operations at field are always kept safely and continuously.

DIVING/ ROV SURVEY SUPPORT

Besides core services, HD Marine has been providing its vessels for other complicated scope of service such as subsea survey in safely manner.

SHIP MANAGEMENT SERVICE

With our experts who are experienced with oil & gas industry for many years, HD Marine is currently applying management system compliance with international standard and approved by the reputable register of shipping such as DNV, VR. Entrusted by foreign owners, HD Marine has been chosen as provider for ship management service when they bring their vessels to Vietnam.

MARINE CREW SUPPLY SERVICE

HD Marine is managing 182 crews who are experienced and skillful with adequate certificates to work onboard service vessels. HD Marine is confident that our crews will be completely responsive to client's requirement.

RESCUE AND SALVAGE

With wide range of vessel class working at sea, HD Marine is able to provide and mobilize vessels for emergency situation when needed.
